

HZ Technologies, LLC

Realistic Solutions for Real Challenges

OVERVIEW

HZ Technologies, LLC (HZN) is a consulting firm that provides Project Portfolio Management (PPM) services. We focus on helping Small and Medium Enterprises (SMEs) take advantage of PPM best practices.

Project Portfolio Management (PPM) solutions take time, money, skills and organizational commitment to implement. This can be especially challenging for Small and Medium Enterprises (SMEs) who typically have a shortage of these resources.

To address these challenges we have tapped into our collective experience pool and developed **HZN's PPM Toolkit®**. SMEs benefit by implementing the Toolkit's quick and cost effective solutions and take advantage of industry best practices. We can follow these with detailed and formal PPM solutions.

Our experienced consultants provide *cost effective, quality, realistic, sustainable* and *practical* PPM solutions that meet our clients' needs. We *transfer knowledge* to the client organization and provide *customized training* to ensure *sustainable* best practice solutions.

HZN is Woman Owned Small Business and a registered Texas HUB and Federal Government vendor.

OUR SERVICES

Project Portfolio Management (PPM)

HZN consultants work with clients to implement realistic and tailored PPM solutions within organizations. The PPM framework encompasses core PPM Life Cycle components i.e. Demand Management, Delivery Management and Benefits Management capabilities. We also help clients set up Project Management Offices (PMOs).

Program and Project Management

Our credentialed PMPs® and PgMPs® use industry best practices to help you and your organization deliver positive outcomes.

PPM Tool Evaluation, Selection and Implementation

PPM Tool Evaluation, Selection and Implementation service includes working with clients to identify PPM Tool requirements, issue a Request for Proposal (RFP) to PPM vendors, evaluate the vendor responses, select a tool and implement it within the client organization.

PPM Training

HZN consultants provide comprehensive training to support the company's service catalog. We work with our clients to tailor training modules to their specific needs.
